

**Amendments in the Specification:** (struck-through parts deleted and underlined parts added)

In the paragraph beginning at page 5, line 26:

The front wall 16 has a front opening 40 extending therethrough. The front  
5 opening 40 extends into the first portion 34. The front opening 40 has a bottom edge 42  
that is spaced between  $\frac{1}{2}$  inch and 2 inches from the bottom wall 14. This aids in  
preventing the escape of any material from within the housing 12. The front opening 16  
40 generally extends from the partition wall 32 to the first side wall 20. The front  
opening 40 has a height generally between 9 inches and 12 inches and preferably has an  
10 arcuate upper edge 44.
